

Title: "New Regs STAT"

Overview:

New Regs Stat will focus on a comprehensive review of the new Requirements of Participation (RoP). The content is concise with tips to navigate the survey process while utilizing the RoPs to provide continuous Quality Assurance and Performance Improvement (QAPI).

Learning Objectives:

1. Review the new changes in the Requirements of Participation.
2. Describe key actions required to achieve compliance in the new Long Term Care Survey Process (LTCSP).
3. Analyze and prioritize action steps needed to achieve quality outcomes.

Bio:

Teresa Remy, DSc, MHA, LNHA, BSN, RN, RAC-CT, CDP, QCP, IPCO, has nearly 37 years of experience working in healthcare. As the Director of Clinical Services at LeaderStat, her areas of expertise include the entire continuum of care from Acute Care to every aspect of Post-Acute Care such as Sub-acute, Skilled Nursing, Residential Care/Assisted Living, Home Care, Hospice/Palliative Care and Private Duty. Teresa has also been a Healthcare Facilities Surveyor, therefore, her focus on the importance of regulations and quality, combined with her years of experience, enable Teresa to use her expertise and talent to assist others in achieving excellence. Teresa has a proven record of achieving consecutive 5- Star Ratings, National Quality Awards, U.S News and World Report Best Nursing Home Awards, perfect surveys as well as working with multi-facility chains in achieving exceptional results.
